## WHAT'S DOING

J. S. Pyle, your Telephone Manager in Torrance

As any mother knows, it's usually hard to keep kids away from the phone. They love to use it. And it's important they learn how to use it properly when they're young. That's why we put together "Adventures in Telezonia." It's a teaching kit, complete with puppet movie, shown above, that shows grade school students how best to use the telephone. We worked it out at the request of teachers and with their assistance. It teaches the right way to make calls, including those from public phones. And this training helps everybody get better telephone service. "Adventures in Telezonia" is available to schools just for the asking.

September's back-to-school time is a lot of families. Time to remember that a long distance call is a fine way to keep in touch with the kids away from home. Why not plan now to set aside a certain night each week for a telephone visit with your favorite student. And station-to-station rates are lower after 6 p.m. weekdays and all day Sunday, you know—**even lower than you might think. Pacific Telephone.**
